

To Our Valued Clients,

The impact of the Coronavirus (COVID-19) is being felt by all of us. Our number one priority is the health and safety of our customers, employees, and their families.

In order to ensure the safety and health of our employees and customers, Nobel Systems has implemented a Health and Travel Procedure for all its team members.

The procedure includes requiring employees who are sick with flu-like symptoms to stay home and see a medical provider. Those who have been in direct or indirect contact with someone who has tested positive for COVID-19 are asked to stay home for a period of 14 days.

We are also requiring employees who have traveled or plan to travel to any area deemed as a potential threat of exposure to COVID-19 to self-quarantine for 14 days upon their return. They must also provide a medical release from a doctor before returning to work. The same requirements apply to employees who have traveled or plan to travel on cruise ships where there has been exposure to COVID-19.

We will continue to closely monitor the situation to make sure that all precautions are taken to protect our employees and customers alike.

We value and thank you for your attention and continued support. Should you have any questions regarding this matter, please feel free to contact me personally at msamuel@nobel-systems.com

Sincerely,

Michal Samuel
